PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications using MEAN and MERN stack architecture. Experienced in developing responsive user interfaces, REST APIs, AI-integrated features, and multi-service management systems. Skilled in WhatsApp automation, payment gateway integration, OTP authentication, and cloud-based deployment. Passionate about building real-world business solutions through modern web technologies and freelance client projects.

TECHNICAL SKILLS

Programming Languages	: JavaScript, HTML5, CSS3, Python, PHP
Frontend Frameworks	: React.js, Angular, Bootstrap, Tailwind CSS, Responsive UI
Backend Technologies	: Node.js, Express.js, REST API Development
Databases	: MongoDB, MySQL, Firebase Firestore
Cloud & BaaS	: Firebase (Authentication, Firestore, Hosting)
GenAI & AI Integration	: Prompt Engineering, AI-based Feature Integration
Tools & Platforms	: Git, GitHub, Postman, VS Code
Architecture	: MEAN Stack, MERN Stack, API Integration, CRUD Operations

WORK EXPERIENCE

Full Stack Developer

ERPA, Hydrabad | June 2026 – Present

- Worked on Workday application, feature enhancements, and workflow improvements.
- Collaborated using JIRA, Git, and Sherpa.ai for project management.
- Supported debugging, issue resolution, and application maintenance.

Freelance Full Stack Developer

Self-Employed / Freelance | November 2025 – May 2026

- Developed custom client projects including booking, delivery, and management systems.
- Integrated WhatsApp automation, OTP authentication, and payment gateway features.
- Designed responsive UI and scalable backend APIs using Node.js and MongoDB.

Associate Software Engineer

Punditry Tech Labs Private Limited, Bangalore | July 2025 – October 2025 | Hybrid

- Developed responsive web applications using React.js and MERN stack technologies.
- Integrated AI-based features and optimized application workflows and performance.
- Collaborated with team members to build scalable frontend and backend modules.

PROJECTS

E-Commerce Website with Payment Gateway (React & Firebase) seashell-craft.web.app

- Developed a modern e-commerce website using React and Firebase with secure authentication, real-time database, payment gateway integration, dynamic product management, and responsive user-friendly interface.

Restaurant Billing System with AI (MEAN Stack)

- Developed full-stack billing system using MongoDB, Express, Angular, and Node.js.
- Integrated AI functionality to enhance operational efficiency and data handling.

Multi-service online booking and delivery platform (MERN Stack) www.weservices.in

- Developed a scalable multi-service management system with branch handling, vendor management, order processing, and centralized admin control panel.
- WhatsApp integration for automated messaging/replies, OTP authentication, delivery tracking, and online booking management.

Hostel Management Website (PHP & MySQL)

- Built web-based management system for student accommodation handling registration, room allocation, E-Pass, Attendance and data management with secure database operations.

Small Business Website (Angular.js) hotel.wecreates.ltd

- Designed responsive business website using Angular.js with modern UI and optimized performance.

INTERNSHIP & TRAINING

Full Stack React Internship – DCE Technology, Virudhunagar (On-Site)

Full Stack Angular Internship – Thulija Technology, Malaysia (Remote)

Full Stack Python Internship – Appin Technology, Coimbatore (On-Site)

TCS Empowers Training – YEP Program (Remote)

CERTIFICATIONS & ACTIVITIES

- Completed Node.js - The Complete Guide course on Udemy.
- Completed Data Structures course at VHNSNC.
- Attended Bootstrap workshop organized by Appin Technology.
- Participated in UmagineTN industrial visit .

EDUCATION

Master of Computer Applications (MCA) CGPA: 7.5 (2023–2025)
V.H.N.S.N College, Virudhunagar

B.Com with Computer Applications CGPA: 7.3 (2020–2023)
V.H.N.S.N College, Virudhunagar
